

FIRDAUS HISHAMUDDIN

Information System Student, python programmer.

Personal Summary I am a Business student which has high intensity and passion into the IT world. Yet following to that, I then took my interest into the next level which is practice and understanding. I am now with my half-technical and half-management self is looking forward into a more interesting and challenging world outside awaits for me.

Looking to join a company that offers internship during May 2016 – January 2017
